## THE CARGOES WE TRANSPORT

- General cargo of all kinds in bulk, bags or break-bulk such as: agricultural products, animal feeds, wood products, cement in bulk or bags, logs, steel cargo, steel coils, steel billets, bars, plates, pipes and piles, machineries, etc...
- Oversized and heavy-lift of all shapes and weight such as: Modules, reactors, pressure vessels, tanks, turbines, transformers, boats, vessels, pontoon barges, yachts, cranes, industrial plant parts, Christmas Trees, Locomotives, Wind tower equipments, columns, mining trucks, etc..
- Dangerous goods class such as: explosives (IMO Class 1), military vehicles & machinery; ammonium Nitrate 5.1, Boosters, Detonators

## CARRIERS NETWORK

We always maintain an extensive network of bulk and break-bulk carriers:

- For general cargo we have a vast network of bulk carriers both locally and internationally who operate either purely on tramp service or regularly run their fleets between certain ports or in certain part of the world. Our source of vessels container vessels from 2,000dwt up to panamax size
- For break-bulk and project cargo transport, we work closely with many multipurpose break-bulk and heavy-lift carriers around the world, but with strong focus on Far East/Persian gulf and APAC region.
- We also have a wide selection of Ro-Ro carriers who can handle all movable/drivable vehicles
- To handle extremely oversized and heavy-lift items which requires vessels with lifting capacity up to 1,500mts per unit or up to 30 – 40m high, we are well supported world-class super heavy-lift carriers and semi-submersible carriers for the job.
